OLYMPIC'S SPECIAL CALL SIGNS, PICTURES GALORE, '61 USERS HOROSCOPE, CARTOONS,  
ETC.....ENJOY.....

WARNING: EXPLICIT WORDS, PICTURES & PEOPLE INSIDE. DO NOT OPEN IF YOU THINK  
YOU MAY BE OFFENDED...

# THE REPEATER

1. The PL is on. The idea was to keep an ever-growing group of assholes out. You know the type: No license, no talent, nothing to add to the fun on 61. The PL also keeps out a 3-way mix that was getting in on 146.01. Things were getting so the majority - the licensed hams - on 61 were getting tired of having to listen to the unlicensed no talents.

FREE AND OPEN has nothing to do with what technical means are used on the repeater to keep out non-hams and QRM.

FREE AND OPEN philosophy began in the mid-70's when there were repeater wars - and REAL "AYATOLLAHS"...Dictators that shut off the machine if ham users said "Darn" or "Heck".

FREE AND OPEN came to be a guarantee of an open forum repeater where licensed amateurs could discuss, debate, joke and have fun without their means of communication being taken away by a repeater owner (or jammer for that matter). WA6RQD, WA6KOS kept the promise with machines on 01-61, 84-24 and 435, And, I am keeping '61 free and open now.

FREE AND OPEN never was meant by any past or present repeater owners to be a place for unlicensed stations, jamming and no-talent remarks or noise. Amateurs all ALL welcome on 61. 61 is open. Speak your mind and have fun.

2. The repeater is in a rental site now. The days of free sites are a thing of the past. In order to handle the site rent and equipment costs with less hassle (I got sick of it), some of the 61 support group and I got together and got an official bank account in the name of the 61 support group.

Please help with the rent and maintenance. Send a check to the 01/61 SUPPORT GROUP.

3. SHOWS. The definition of a SHOW in the past has been when Amateurs on a free speech repeater get into serious arguments, debates, or craziness... or a QSO that is interesting to listeners. Sometimes people "act out" or turn on their microphone personalities, and that can be a SHOW.

A lot of newcomers to 61 (over the last year or two) don't seem to know what a SHOW or good talent is. The jamming, squeaky voices, and fart noises just don't cut it-it isn't a SHOW.

Let's get some talent out there.

By the way, for those who like to yell "Boring" or jam over someones QSO, CONSIDER: QSO's are not all SHOWS made up to amuse you. Some users just like a normal conversation once in a while, and are not on the air for you. If the QSO bores you, go watch the Flintstones, smoke PCP or take crazy-glue enema.

WANT TO HELP THE SYSTEM? I am looking for late model, working GE MASTR PRO stuff for redundancy, backup or other FREE AND OPEN weirdness.

HERE'S THE STUFF:

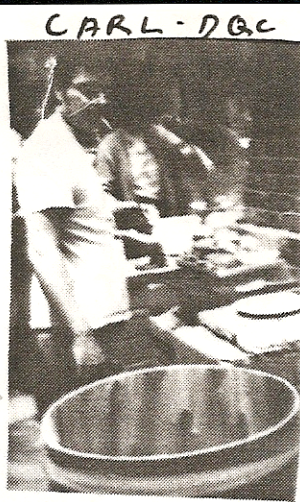

1. GE 4EP38A12 power supply
2. GE 4EKC19 controller
3. GE 4ET58A17 Hiband xmtr strips
4. GE 4ER41A17 Hiband receiver strips

I want to move '61 from its present location to one that is safer, but still in the same site. There would be "no strings" at the new location.. I would not be told to shut down for "interference problems". 61 could probably run more power. The catch is liability insurance for a million. If you can help me find someone who will insure 61 for this amount, let me know. It is important to get out of the present situation.

KILL !!!

AQUARIUS (Jan 20 - Feb 13)

You have an inventive mind and are inclined to be progressive. You lie a great deal. On the other hand you are inclined to be careless and impractical, causing you to make the same mistakes over and over again. People think you are stupid.

PISCES (Feb. 14 - March 20)

You have a vivid imagination and often think you are being followed by the CIA or FBI. You have minor influence over your associates and people resent you for your flaunting of your power. You lack confidence and are generally a coward. Pisces people do terrible things to small animals.

ARIES (March 21 - April 19)

You are the pioneer type and hold most people in contempt. You are quick-tempered, impatient and scornful of advice. You are not very nice.

TAURUS (April 20 - May 20)

You are practical and persistent. You have a dogged determination and work like hell. Most people think you are stubborn and bull-headed. You are a Communist.

GEMINI (May 21 - June 20)

You are a quick and intelligent thinker. People like you because you are bi-sexual. However, you are inclined to expect too much for too little. This means you are cheap. Geminis are known for committing incest.

CANCER (June 21 - July 22)

You are sympathetic and understanding to other people's problems. They think you are a sucker. You are always putting things off. That is why you'll never make anything of yourself. Most welfare recipients are Cancer people.

LEO (July 23 - Aug 22)

You consider yourself a born leader. Others think you are pushy. Most Leo people are bullies. You are vain and dislike honest criticism. Your arrogance is disgusting. Leo people are known thieves.

VERGO (Aug 23 - Sept 22)

You are the logical type and hate disorder. This nit-picking is sickening to your friends. You are cold and unemotional and sometimes fall asleep while making love. Virgos make good bus drivers.

LIBRA (Sept 23 - Oct 22)

You are the artistic type and have a difficult time with reality. If you are a man, you are more than likely queer. Chances for employment and monetary gains are excellent. Most Libra women are good prostitutes. All Libras die of Venereal Disease.

SCORPIO (Oct 23 - Nov 21)

You are shrewd in business and cannot be trusted. You shall achieve the pinnacle of success because of your total lack of ethics. Most Scorpio people are murdered.

SAGITTARIUS (Nov 22 - Dec 21)

You are optimistic, and enthusiastic. You have a reckless tendency to rely on luck since you lack talent. The majority of Sagittarians are drunks or dope fiends. People laugh at you a great deal.

CAPRICORN (Dec 22 - Jan 19)

You are conservative and afraid of taking risks. You don't do much of anything and are lazy. There has never been a Capricorn of any importance. Capricorns should avoid standing still too long as they tend to take root and become trees.

CARSON, CA.

1. Jay (AAM)
2. CSW makes it himself at home in here
3. LQ, LEB & HIV could be in this group
4. RQD
5. At repeater site or in your mouth
6. According to W5YI, 61 is California \_\_\_\_\_
7. Popular group ran by SUDs (Numbers were given)
8. LTQ is always \_\_\_\_\_
9. South Bay \_\_\_\_\_
10. W6's Medical Companion
11. Minimum power necessary to maintain communications on 61
12. VPS was one (2 wds)
13. You squeeze this
14. The \_\_\_\_\_ Newsletter
15. Morse code is considered this by Army (2 wds 2nd word is acronym)
16. Art's wife (one of the more famous names on 61)
17. "Mary had a Little Lamb" is sometimes done using \_\_\_\_\_
18. 61 is known by many as this (2 wds)
19. Youngest 61 operator (2 wds)
20. LEB's favorite drink
21. Break with your \_\_\_\_\_ (Note: it is NOT call)
22. Save the \_\_\_\_\_
23. Replaced answer to 10
24. Unidentified stations (usually found making comments)
25. FCC & ARRL are fighting his decision (2 wds)
26. Are often given to warn 61 users of various things
27. Old \_\_\_\_\_ (Found on 07/67)
28. Answer to 16's Admirer (2 wds)
29. LEB, AAU, & VCE might be considered this
30. This is said sometimes for hours and hours (short word)
31. Opposite of answer to 7
32. Person who was literally given his/her license (2 wds)
33. FCC official whose name is heard in the quote "Go get 'em \_\_\_\_\_"
34. Heard on 61 (2 wds; first word same as first word of answer to 18)
35. Told to weak stations (3 wds)
36. Ronny \_\_\_\_\_
37. BIZ, X, ET & EAE are our resident \_\_\_\_\_
38. Word which refers to our "largest" ham \_\_\_\_\_
39. I wanted liver but they served me \_\_\_\_\_
40. A person who has not been on 61 very long
41. 61 has millions of these
42. Editor of newsletter or name called by people who later regret it
43. Everyone on 61 has had at least one of these bad things (2 wds)
44. We have ours and they have theirs
45. People who censor people by squeezing answer to 13
46. Always asks same question and thus his name (2 wds)
47. TMQ talks to these
48. Only way to operate on 61; requires 2 radios
49. \_\_\_\_\_ alert (MR0)
50. The repeater has one but it is never long enough
51. 6 letter acronym heard on 61
52. Listening, \_\_\_\_\_, taping and enjoying
53. Popular item often abbreviated BP (2 wds)

### A NOTE FROM BOBBIE

W5YI Report  
Post Office Box 10101  
Dallas, Texas 75207

Gentlemen:

In a recent edition you posed the question of why Los Angeles would have a repeater such as the 146.01/.61. To answer that question fully you would have to experience the unique lifestyle of the Repeater area. This lifestyle is unlike that of any other area. Perhaps the Repeater seems to mirror the lifestyle of a large segment of the population. Perhaps it serves as a "steam valve" that provides a place to relax and "let it all hang out" amid the "life in the fast lane" of the area. Perhaps it is indeed a "cancer" and should be wiped out. To determine just what it is would take a good deal of close-up study of the Repeater, the community it serves, the people who frequent it as they are there and on other frequencies, and the times we live in in general.

I neither condemn nor condone the repeater. I only suggest that it be given a critique as a part of the society it grew out of. The way the frequency is used today evolved out of much use and abuse by both repeater users and repeater owners.

Is the Repeater really a threat to any other amateur frequencies or amateur bands? It is just an "escape valve: where people can let off steam, be creative and gather their "wits about them" to act in a "sane and law respecting manner" during the larger part of their lives?

I have been a licensed amateur for a relatively short time and have experienced the 2 meter amateur band on a limited basis so I do not feel that I am qualified to judge an "institution" that has been on-going for some time. If society were as we would wish it to be there would no doubt be little popularity for such a forum. Unfortunately, life around us passes as a tremendous speed & the news is almost always both depressing and frightening. That may be exactly the reason for the popularity of the .01/.61 Repeater. People who work in technically regimented fields need a chance to unwind and have a little fun. That is all it is - harmless fun.

When I first listened to the Repeater I was occasionally horrified by what sounded to my unaccustomed ear like death threats. I turned the dial. Somehow, I seemed more and more to linger on that one frequency. Why? Of course, there were many, many hours of interesting discussions on topics ranging from electronics and mechanics to religion and philosophy. Soon I also came to realize that the frequent users were only "putting on a show;" taking the opportunity to express feelings they would not in other places and at other times. No harm was meant by their often extreme language.

As set down by the Supreme Court in "U.S. vs. Roth" material is to be judged obscene only when it has no socially redeeming qualities and it is to be judged as a whole by current societal standards as viewed by the average reasonable adult. By watching television, listening to commercial radio, reading newspapers and books, and even listening to street corner conversation one sees that the community standards are constantly changing.

Perhaps this is more so in the Los Angeles area than other parts of the country. Since this area houses three major institutions of higher learning (UCLA CSUN and USC) perhaps it is to be expected that standards will change more rapidly due to the high key atmosphere.

Rules may be broken but with no malice. Emergencies are heeded, possibly more quickly than on other more rigidly run repeaters. Several times I have overheard a motorist stalled on the freeway literally begging for assistance while the users of a repeater debated whether calling a tow truck was a legal repeater function or would come under the realm of business.

I have personally been stuck in traffic while attempting to make a "break" in a local repeater and been ignored or asked to wait while a very lengthy "QSO" ensued. I turned to the .01/.61 Repeater and the "jam mers and infrequently identified operators" were courteous enough to stand by while someone took down the information and contacted the LAPD. A traffic officer was on the scene and had the situation under control just as the users of the first repeater reluctantly relinquished the frequency.

Perhaps my background makes it easier for me to tolerate the language often heard on the Repeater. There is very little repeated over the air that I have not heard every day while I have been at work. Then again, I have been employed in the primary school grades so perhaps that would not be considered the "community as a whole." At recess these youngsters are exhibiting language they hear elsewhere and I seriously doubt very many of them are radio amateurs or are related to radio amateurs.

In closing I ask that you reserve judgment on the 146.01/.61 Repeater until such time as you have had an opportunity to experience the Los Angeles area and have listened to all of the local frequencies for enough time to get a true picture of the unique Southern California life-style.

Thank you, BOBBIE-KF6LS

## W5YI REPORT.....

Page #9

February 15, 1983

### DOING IT DIGITALLY - TRAFFIC LIGHTS IN THE BOUDOIR...

The February issue of Discover magazine highlights another (very) Personal Computer called the "Bioself 101" - the creation of a Swiss inventor. The bedside computer has an external recording gadget which a woman uses daily to automatically and quickly record her temperature and a button to press to tell the computer when her menstrual period begins. From that point on, everything is done with microprocessors. The inexpensive (\$50) device constantly signals a go/no go signal for sex with green and red lights... or the time when she won't become pregnant. Supposedly it has the approval of the Roman Catholic church! Since we now have computer marriages and computer sex, can computer Cesarean's be far off? How do you die digitally? Is "manual living" a thing of the past?

\*\*\*\*\*

\*\*\*\*\*SPACE SHUTTLE NOT JAMMED BY "61-SCUM"\*\*\*\*\*

TO HELL with all those assholes that insist the W5LFL downlink was jammed by the "SCUM-of 146.610". What a joke to even imply that all the confusion we all heard could possibly have been caused by any one group. The assholes that insist the problem was "61's" work are exactly the fools who say we have to eliminate "61". If in fact we could disrupt space communications, just think what we could do to their local repeaters. Not that we are planning anything..... BUT what if we were the type to do as we are accused of doing. Then they would bitch—that they need a "61" type repeater "like we had in the old days", so these scum would leave our repeater alone. Oh what the hell, you just can't please some hams. Bitch & moan, bitch & moan, why won't 61 leave us alone.

John- N6YOU KNOW WHO

(9)

NO EXTRA-CHARGE FOR  
FU--ED-UP-TYPING.

FRED.

What? 61? You got to be kidding, are we going to go "public service"? The Olympics are coming up. There will be a lot of visiting hams from all over the world using repeaters in Southern California, and a lot of repeaters and simplex channels will be doing public service work.

61 will not be turned into a public service repeater, there are a lot of volunteers and radios for that already. 61 will not be turned off to make a good impression either. 61 will be the same, pretty much.

A lot of countries have a very restricted, up tight idea of amateur radio: Thirdworld dictatorships allow him radio because its a cheap way to have HF/VHF communications for military and police, although a token ham or two may exist. Try taling current events, (or anything outside of the weather) with a Russian or Cuban sometime.

I think 61 should continue to be a FREE AND OPEN forum. If anyone from another country (USSR, Brazil, Cuba, East Germany..etc.) does listen to 61 let them hear American Amateurs Debating, Discussing, and having a good time, legally. Let the foreign hams return to their countries with their minds blown. Let them know that in the USA the hams who speak up will not be dragged away by the KGB. Maybe the FREE AND OPEN philosophy will get a few oppressed people to think.

With the world's ears on 61 it is important to show them what Americans can do with their Amateur license and First Amendment

With all the Foreign visitors possibly listening, there will be amother element listening-an oppressive ham element who want 61 to go away. The government (FCC) may be listening and the FED doesn't like international embarrassment.

## SPECIAL CALL SIGNS FOR THE OLYMPICS

Hams with six-land call signs will have a chance to commemorate the 23rd Olympiad in 1984. The Chief of the Private Radio Bureau, Bob Foosaner, has waived the FCC's prohibition against special call signs. For the months of July and August, 1984, the FCC will permit Amateurs in California who have the numeral "6" in their call signs, to substitute either "23" (as in the 23rd Olympiad) or "84" on a voluntary basis. This gives you plenty of time to get special QSL cards ready for next year, or plan to overprint your present QSL cards.

To have the FEDS on our side, we'll have to adhere to licensed operations only. No Bootleggers, "Mr. Bill" voices, and no-talents.

NO CALL ----- NO CREDIBILITY !

Let's continue as we are" FREE AND OPEN... we'll just have to mind our I.D. a little more. Instead of comcealing your voice like a coward - use your call-sign and normal voice. If you want to call another amateur a louse-ridden, cocksucking, douchebag faggot, please do it legally and keep the FEDS on our side. Let's show the world what a FREE AND OPEN machine can really do---- America is still number one.

Dear Mr. Antiseptic,

SWL ED

Being deviant at heart, and criminal at the core,  
I've found that most repeaters are, at best, an awful bore.  
I hate to hear "fine business"  
and talk of rain or snow  
so I gravitate to six-one and lllllisten to the show.

I snicker at the foul mouth, and gag on SUS.  
I kneel before the Giptu, my saviour, I confess.  
I love to hear a good "shuttup"  
or a jammer get the BIZ  
or the blow-by-blow from GNQ each time he takes a whiz.

There's witty Arnold Gamson, the man behind the wheel  
and the commie CSW with brain of low-grade steel.  
There's a jackass half-bird colonel  
who demands a vacant freq.  
and the broadcast from the hivemobile, pur faggot of the week.

Long live the Ayatollah, our master on the hill,  
and pus, and tapes, and dial-a-sex, the PST's, and "KIIILL!!!"  
The croaker jerks on four-three-five  
may say they've had enough  
but they're always in the listening mode, enjoying nasty stuff.

So thank you, all you animals, for hurling out the shows.  
I think of you and breathe a sigh each time I pick my nose.  
In these sad days with talent scarce,  
and humor much too silly,  
it's great to lurk on six-six-one, but who the heck is Millie???
