Welcome to another addition of the ever so wonderful and wild "Catch the BUZ(Z)" newsletter brought to you by Richard Clark N6UZS (the former KB6BUZ). Inquiring Minds Want To Know all about my long history of trouble making so who other than myself is better qualified to have their dirty laundry waved about as well as do the waving!! But just so you don't think I am biased, I have asked a number of 435 regulars to contribute articles to this issue. Hang on while I go get some white grapes to eat so that I can fart a lot later. Then I'll get a Pepsi chaser along with one of about \$50,000 worth of Snickers bars. Be right back!

BUZZ NEWS 1

All About Nasty Ol' Me!!

When listening to 435 you will hear many questionable things about me but the first question will be "why do they call him Buzz?". This question inevitably leads you back to my first callsign, KB6BUZ. If you were to use the Freedom of Information Act (FOIA) and obtain copies of my FCC files you might be able to solve part of the mystery! You'll find all kinds of paperwork for a novice, a tech upgrade and a change of callsign request. You might wonder why there should be so much paperwork for someone with just a tech license, but that is your first clue!

Just ask Arne Gampson (K6PXA) about how long I was listening to 435 before I took the test and just how many times I took the test before passing. Some of the nastier rumors suggest that some misguided soul felt sorry for me and found a "way" to make sure I passed. Isn't it nice that they don't require photo ID at the tests!

Next you'll have to wonder about all of the strange facts involving my current callsign; Why is the mailing address STILL at KA6JMM's old Anaheim address? Why would I operate for months without using any callsign, new or old? Why would I claim that I knew who did it yet NEVER petition the FCC to give back my old callsign? Was it Jim Zulack who did it? Why did the FCC give me a callsign that lends itself to equally uncomplimentary phonetics-- "Ugly Zit Sucker" vs. "Butt Ugly Zit"? Who else but ME could have requested a callsign change?! Why does the possibility of a real investigation frighten me? Why should I question anyone else's callsign when mine is riddled with uncertainties? You know the old saying " To hide your own guilt just point the finger at someone else".¹

What about all of those comments by SUS and RKW about my lifestyle? Well fuck you! What if I AM a mommy's boy, 24 years old, no driver's license, no girlfriend, no job, no savings, 200+ pounds at 5 foot tall, barely got out of high school, a bedwetter, foul-mouthed, have a stupid sense of humor, can't keep myself from backstabbing friends, a male chauvinist pig, commercial/ham repeater jammer, longwinded bore and all around slob!! Why do you think I can't stand anybody who has a real career, an education, a legal callsign, a car, money, girlfriend, his own home, a sense of humor, polite, neat, thrifty, brave clean or reverent? Because I'm a LOSER! Fuck ALL OF YOU!

¹ Widely attributed to Confucious, but most likely it was uttered after too much chili at the cookoff!

THE FIVE STAGES OF CATCHING A "BUZZ" ON 435

by Agnes (Ahhmmm) Ovuh

1. He starts out denying that he likes T-hunting any more and then switches to the offensive (with a capital "O") by attacking your wife/girlfriend, family, reputation, job, ham status and physical attributes.
2. Then he breaks for some sugar ingestion and continues the diatribe with a long monologue on what he believes are all of your "crimes" against ham radio and how he never does ANY of the things that he accuses you of.
3. Well into the third hour of tying up the frequency, he will only respond to your protests by calling you a liar and using his own convoluted "logic" to try, judge and convict you in the silly belief that somehow everyone else is siding with him. (Most people have turned off their radios by now!)
4. When you finally manage to get a word in edgewise and question his living at home, obesity, bedwetting, lack of driver's license and never having gotten laid he will launch into a long, whining, bitchy dissertation on how he thought you were his good friend until you "backstabbed" him by daring to contradict all of the lies he has promoted as well known facts.
5. This is the point after you have switched your radio off, gone to bed, overslept and then turned your radio back in the morning. You'll find that he has continued all night without realizing that you are gone, skipped work (IF he had a job) because of his myopic view that 435 revolves around him and never lets anyone else use the repeater the whole time.

10 PRESENTS TO GIVE BUZZ FOR ANY OCCAISION

by Andy KB6UuuuuuuuuuuuuuQV

1. Toilet seat with his name on it.
2. A copy of the classified job listings.
3. A yellow "Gibson Girl" thrown through his window.
4. A ride to the welfare office.
5. Free time on your remote so he can jam other people.
6. Jam someone else's repeater for him 'cuz he aint got the balls to do it alone.
7. New rubber sheets for his bed.
(you know, the kind with the little yellow ducky print?)
8. Big Red giving him a "gonadectomy" with a pair of nail clippers.
9. Wrestling lessons from Tinkerbell.
10. Taped copies of WB6SUS's dissertation on why BUZZ hasn't got laid.

RAP-ON BUZZ

by Eric KC6BEO

I like to "rap" on Buzz,
Smack 'em in the head
Grab him by the throat
And shake him 'til he's "dead"

I cover up the output
And really piss him off
Don't care about his stupid threats
It only makes me scoff!

Poor little Buzz,
Hidin' in mommy's house
Roaring on the microphone,
Pissin' n' shittin' like a mouse!

I always hear him rant and rave
About what he says he'll do
But what he really truly means
Is jerkin' off is what he'll do!

So when I hear Buzz on 435
I like to pull his strings
To make him dance, scream and shout
All sorts of silly things

CAREER OPPORTUNITIES

CENTRAL INTELLIGENCE AGENCY

The Central Intelligence Agency
is looking for men and women who
want a career with a challenge
and rewards to match.

Not everybody can work for the Central Intelligence Agency but you may be one of them. It takes intelligence, skill, initiative, a willingness to take charge—even the ability to run risks, or work in unusual and uncomfortable places. Or it takes the ability to piece together information from many sources and build it into a picture of what's happening in the world.

Right now we need people with these backgrounds:

Computer Sciences
Economics
Electronic Technology
Engineering (aero, civil, electric, electronic, mechanical, nuclear)
Foreign Area Studies
Languages (Russian, Eastern European, Middle Eastern, Oriental)
Mathematics
Medicine and Medical Technology
Photographic Interpretation
Physical Sciences

Some of these opportunities are in the Washington, D.C. area, others are abroad or offer foreign travel. All place you within an elite group of very special people. Graduate or undergraduate degree in the appropriate academic field is necessary, and practical work experience is a big help. Fringes are liberal: insurance, retirement, leave, plus additional compensation while serving overseas. You must be an American citizen.

If you're a venturesome person who wouldn't be content with an ordinary job, send your resume in confidence to
