Chili Cook-Off 1997

Yes, it is that time of the year again. It is time for the 7th Annual 147.435 Chili Cook-Off. The festivities will be held this year at Friendship Park in San Pedro on Saturday July 26, 1997. The fun starts at 10 am. I know this Editor will be there! If you would like to volunteer to be a judge or want to enter at least one gallon of your homemade chili, leave a message on the Signal Report hotline (562) 709-5170. I hope I will see you all there!

Continued next month...

From the desk of TK

I just want to say thanks to Darren, N6VGU for all the help he has given me over the years. It seems like just yesterday that Scott, KD6YWA cut the coax at the repeater site. Yes N6VGU bailed me out then with the repair of the coax. Now, VGU does it again with the gracious loan of a repeater for 147.435. I would still be sitting on my fat ass with my finger up my nose if it had not been for Darren.

I would also like to take the time to thank the editor of the Signal Report, N6XXX, for giving me the opportunity and space in the newsletter. In my column next month I will have my seating chart for all of the 435 Players. You will be tested on the seating chart so be sure to study and if someone doesn't turn their test back in to me, well, you will be tested again with a completely different test. You ladies are going to do it my way or no way at all! So until the next Signal Report I will open it up to the multitude and say

73,

Roy

Burton does it again!

Congratulations once again to Richard Burton. This editor has been sitting on this story until the 30 day FCC "Set Aside" rule was over and now they can't take his license. Is the FCC a bunch of incompetent fools or what?

Welcome aboard Richard Burton, KF6SGG! Enclosed you will find a copy of Rich's new license. Eat your heart out Roy Tucker!

Asshole of the Month.....

Hi Radio Buddies, this is Snoop Doggie ZEUS. The Editor of the Signal Report asked me for an editorial on or about something...This months

Bullshit will be about jammers, assholes, social misfits and dickheads. The first problem to address is Frank Retard, (Velcro General). Frank for the new Ham out there is like a tight pair of shoes, you think they fit ok and after they ware a bit they squeak. Frank is a phony. He will buy your friendship and if you suck his dick and say the right things you have Cart Blanch on Ham radio (if you can stand the back stabbing). All this depends on how much ass kissing you do on Franks ass. Don't be fooled by Franks BS. His wife is the bread winner in their household. Frank speaks from the bottle and be sure not to cross him or you will pay the price of harassment at the work place. Frank is a little man and has no future, no retirement, no place in Ham Radio. After Heidi kicks off, Frank is destined to push a shopping cart full of empty beer bottles down skidrow.

To all the New Hams out there, Frank will screw you in a heart beat. He got his license by fraudulent means and the FCC is checking it out and working on KEK and others.

Frank is used to problems and trouble and will take anyone down with him if he thinks it will help him out... so Ham beware !!!

Frank has been "DF"ed and has been Jamming 145.460, 147.435, 147.090, 143.990 and 460.025 on a full-time basis and is under investigation buy the FCC, Army Mars and the Orange Co. Sheriff Dept. Is this someone you want to follow New Ham?

PS. Lets remove Frank from Ham Radio.

Call in your vote at (562) 709-5170. Please leave your call sign, mailing address and phone number. We will need it for the FCC complaint on the dirt bag Frank Retard.

73 de N6ZUS

Well folks, that is all for this month. Remember, if you haven't called in to the Signal Report Hotline (562) 709-5170 and left your mailing address on the answering machine, you won't get a copy of the Signal Report. That makes it very, very simple doesn't it? I will see you all at the Chili Cook-Off!

Below are your Amateur Radio Licenses in sizes suitable for your wallet and for framing. Carefully cut the documents along the lines as indicated. Each license carries equal operating authority. The Commission suggests that the wallet size version of the license be laminated (or other similar document protection process) after signing. Dear Ham Radio Operator,

This is my demo tape. It proves that I can run with the professionals. It also proves that I can top any show of KD 6 PQW's. I'm tired of being jammed. I'm tired of getting no respect. I have things to say. Stand down and let me speak. I am the Howard Stern of ham radio. I have surpassed Richard Burton as the most famous ham operator in Southern California. I alone have brought ham radio into the public consciousness. Scanner and ham radio sales skyrocketed after my appearances on 97.1 KLSX. What have you done for the hobby? I am the king of Garden Grove. I am the king of ham radio.

Sincerely,

BIW

Please don't be jealous of me!

Dear BIW,

Kiss your ASS Goodbye!

I am the KING of Ham Radio!

The photograph shows a man in a striped jacket standing in front of a building. To the left is a tall sign with 'V.I.P.' and 'Long Beach' written on it. Above the man is a sign for 'warreng' with a picture of a man's face. To the right of the 'warreng' sign are several smaller posters or signs, one of which features a man's face.
